

YOU CAN HELP YOUNG FAMILIES DEVELOP THE **STRENGTH TO OVERCOME** THE CHALLENGES THEY FACE.

Teen Success, Inc.

helps to build pathways to prosperity for **two-generations** **YOUNG MOTHERS** AND THEIR **CHILDREN**

As **YOUNG WOMEN OF COLOR**, our participants experience **limited access** to healthcare and reproductive health information; **trauma** in their homes, relationships, and communities; **lack of access** to safe, affordable childcare and stable housing; all while facing the **stigma** for having a child in their teens. These factors compound the **education gap** they are facing.

There are expected to be **62,405** pregnant and parenting young women under the age of 22 in California

Without support, **less than 24,000** of these young mothers will graduate high school, and **less than 2,000** will complete college by age 30

Despite the **DOWNWARD** trend over the last decade, there are communities across the U.S. where teen pregnancy rates **REMAIN HIGH.** These are predominately **LOW-INCOME** communities.

OF TEEN SUCCESS PARTICIPANTS

94%

are women of color

96%

are living in poverty

Our TWO-GEN Model WORKS to BREAK the CYCLE of POVERTY

OVER **1,500** YOUNG FAMILIES EMPOWERED
